

# S5 and S6 Assessment Schedule

**February 2022 - April 2022**

Fifth and sixth year can be a stressful time. There is a heavy workload and a number of assessments. For new national qualifications, some assessment outcomes are achieved as part of general class work and day to day activities undertaken in the subject. However, other assessment outcomes may demand a more focussed activity, involving additional preparation and revision. Each department and class teacher will keep you updated re deadlines for all assessments. Some subjects will also have an assignment/folio or dissertation to complete before you sit the final exam. You need to submit all such work ahead of the SQA uplift date. Key dates for individual subject deadlines (for assignments, folios) are included in this schedule. It is important that you adhere to **all** of these deadlines.

The purpose of this assessment schedule is to give you an overview of the more focussed assessment tasks for this term in order to help you organise your time and prepare to do well. Remember some subjects have classes in 2 columns. You **must** always check with the class teacher to confirm the dates of subject assessments for your class.

When preparing for subject assessments, remember to:

- Plan your revision well in advance.
- Ensure you understand the format of the assessment ie what you are being asked to do.
- Do not make any appointments at the time of the assessments e.g. Dental appointments/meetings etc.
- Remember you have been successful in National Qualifications previously and should be able to do well in these assessments.

**NB - Check with your class teacher, to ensure that there have been no changes to the assessment dates indicated in this schedule.**
